GOOD GRASS ON

SOUTHERN RANGES

From Luna and Grant counties comes the report that the recent rains, while late to make hay on the ranges, have been of great benefit in making plenty of good grass for the winter feed. It is said that there is enough grass there to feed all the

thousands of cattle there for a number of months. In Lincoln county the grass is also in fine shape. The ranchers in that section have been seeding a great deal of land to gamma grass, more being seeded this year than in any year since 1888, and the prospects are good for an abundance of feed.

SOCORRO PUBLIC

SCHOOLS OPENED

The public schools of the city opened Tuesday morning with a fair attendance, says the Chieftain. The higher grades are provided for at the first ward building under the instruction of Prof. W. R. Twining and Miss Della Harris. The lower grades are taught in the second ward building by Sisters Malachi and Ragala, of Mount Carmel convent, and Miss James. Prof. Twining, the principal, came to Socorro highly recommended and he and his efficient corps of assistants have the situation well in hand. It is reasonable to anticipate that the work of the present year in the city schools will be very satisfactory.

WAS THROWN FROM

WAGON AND KILLED.

Friday afternoon Mrs. E. F. Taylor, while driving to Fruitland from Farmington, was thrown from the wagon and killed, says the Times. While driving down the hill this side of Fruitland, the neckyoke gave way and the wagon tongue dove down and the wagon running onto the horses frightened them and they began to run. The tongue soon caught and broke, and the stub that was left caught in the ground and threw the wagon up with such force that Mrs. Taylor and the two children were hurled from the wagon. Mrs. Taylor's head struck a stone as she fell and she was seriously injured, but could still speak. She was carried to the residence of Roy Kennedy where she died in an hour after the accident. Mr. Taylor, at the time of the accident, was at work on the Blake college, and the news sent him did not indicate that the accident was serious. He started home on foot, but was met by a buggy and the sad news told him. The whole community sympathizes with Mr. Taylor and the children in their sad bereavement.

FIALA IS STILL GAME

age of the late William Zeigler is the youngest man who has ever attempted to penetrate the frozen heart of the silent north. He was educated in Brooklyn and served in the Spanish-American war, and later went with Evelyn B. Baldwin when the latter made his northern expedition. On that trip Fiala was the official photographer, but the young man so impressed Mr. Zeigler that despite the fact that he had neither scientific nor academic qualifications, Mr. Zeigler offered him the command of the expedition from which he has just returned.

It was on June 23, 1905, that Fiala started on the perilous journey northward. From America he went to Norway, commanding a small company of Arctic sailors and scientists.

THE TERRITORIAL BOARD OF EDUCATION

RESOLUTION AND ORDER PROMULGATED AT THE RECENT MEETING.

The territorial board of education which was in session at Santa Fe on Saturday, transacted considerable business before adjourning.

Governor M. A. Otero presided and the following members were present, in addition: Superintendent of Public Instruction Hiram Hadley, of Santa Fe; W. G. Tigar, president of the University of New Mexico, at Albuquerque; Peter J. Schneider, president of St. Michael's college, of Santa Fe; Luther Foster, president of the New Mexico College of Agriculture and Mechanic Arts, at Mesilla Park; C. M. Light, superintendent of the New Mexico Normal School at Silver City; and E. J. Vert, president of the Normal University at Las Vegas.

The secretary reported that the five year certificates had been engraved and paid, and that the work of engraving the life certificates would be completed in the near future.

A five year certificate, which had been granted G. Milton Elam, of Kentucky, conditionally, at the last meeting, was revoked and the fee returned to Mr. Elam.

After some discussion the following resolution was adopted: "Whereas, At a meeting of the Territorial Board of Education, held June 8, 1903, a list of text books was adopted; said board in interpreting its own action hereby expresses the opinion that a school district, or city, after having made a selection from the adopted list, cannot legally change its selection until the expiration of the time for which the adoption by said board was made."

High schools, however, are practically at liberty to select such text books as may best meet their needs as the board has adopted no text books for them.

Messrs. Ticht, Foster and Vert were appointed a committee to report upon the application for professional certificates and the following were granted: Misses Minnie Craig, Lillian Gray, Little Gertrude Johnson, Martha Peters, Edith Edna Thomas, Irene S. Whitmore, Adah Vaughn, Ellen Francis Daniels, Lillian Hagget, and J. Roscoe McCollum. Application upon eight other applications was deferred and one application was rejected.

The board decided to hold its regular quarterly meetings on the second Saturday of September, December, March and June, at the office of the superintendent of public instruction.

Messrs. Ticht, Hadley and Vert were appointed a committee to formulate the rules for examination to be held by the board for professional certificates. It was ordered that:

First. In the preparation of questions for the examination of teachers, the board hereby authorizes the superintendent of public instruction to assign to each member of the board such subjects as he may deem proper, for preparation of questions thereon.

Second. The superintendent of public instruction is hereby authorized to change these lists, on being submitted, or substitute new lists therefor in order that they may be made to carry out the full intention of the board as a whole.

Third. That a full list of these questions shall be mailed to each member of the board at the time they are sent to the county superintendents.

Fourth. That the superintendent of public instruction shall cause to be printed with the examination questions, rules governing the conduct of an examination, as expressed by the law and the action of this board.

Fifth. For the sake of uniformity, and to prevent conflict in this matter, the superintendent is requested to furnish the county superintendents with blank forms exhibiting the names of applicants in full and the branches required for first and second grade certificates.

Messrs. Vert, Light and Foster were appointed a committee to prepare a proper syllabus of the subjects required for examination of teachers for first and second grade certificates. The board then adjourned.
